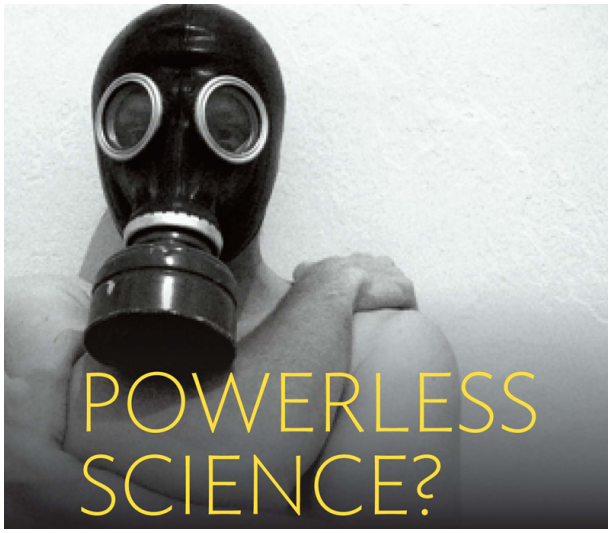
# Environmental History Seminar
# Hilary 2014

## Faculty of History, University of Oxford



The aims of this seminar are to help bring together British and French researchers working on the same topics or issues, and to discuss recent research on environmental history. Therefore, the principle is to invite a French and a British colleague to each seminar, to present their own research and then discuss it

**All sessions are on Mondays, 16:30-18:30**

**24h February 2014**

**Agriculture, pesticides and antibiotics (2nd half 20th century)**
*Venue: Faculty of History, George Street*
