The Universal Esperanto Association has received many requests from Great Britain to forward Christmas parcels to friends and relatives in Austria, Bohemia, Germany, Moravia, Slovakia and certain provinces of Poland. Our Association carried this service during the War of 1914–1918, and the Committee has decided to re-establish it now. The forwarding of such parcels, however small, is difficult, as there are many formalities involved, and the Committee therefore begs to submit the following suggestions:

1. The Universal Esperanto Association shall undertake to send Christmas parcels to the above-mentioned countries from Geneva. These parcels may contain chocolate, biscuits, a small amount of canned food, and condensed milk.

2. There shall be three categories of parcels. (See enclosed order-form.) The charges are inclusive of freight and cost of goods, excepting customs duties which are very small and shall be paid by the recipient.

3. Orders must be sent in no later than December 15th, so that the parcels may be sent in time to reach their destination by Christmas. The senders shall be notified in case of possible changes in regulations. Orders should contain the exact amount of costs, preferably by cheque.

This service is entirely voluntary, conducted on a non-profit basis and is only intended for mutual help. Any contributions towards this work will be most gratefully received.
