

# UrbaChina Newsletter

UrbaChina, a FP7 programme coordinated by CNRS-EHESS

2013-39 (September)

*Car parking in China*  
edited by Monique Abud

Not only in Beijing but also in most municipalities in China, car-parking remains a critical issue.  
<http://urbachina.hypotheses.org/6952>

*China's Li Keqiang about urbanization*  
edited by Monique Abud

‘Chinese Premier Li Keqiang is on the urbanization warpath. For Li, urbanization—transforming rural Chinese into urban dwellers—has become perhaps the most important issue of his early months as premier.’  
<http://urbachina.hypotheses.org/6805>

*Urban studies in France*  
edited by Monique Abud

An introduction to a series of articles about the characteristics of French “études urbaines”.  
<http://urbachina.hypotheses.org/6937>

*China by night, now and then (2010-1992)*  
edited by Miguel Elosua

China's urbanization by night, by courtesy of the National Geophysical Data Center (NGDC), National Oceanic and Atmospheric Administration.

## *China's growing natural gas insecurity and the potential of Chinese shale gas*

edited by Jacqueline Nivard

Article by John Seaman on the Institut français des relations internationales website.

<http://urbachina.hypotheses.org/6880>

## *Chinese research perspectives on the environment*

edited by Jacqueline Nivard

Chinese research perspectives on the environment

A special volume in the Chinese Research Perspectives on the Environment series, this English-language volume is an edited collection of articles from the Chinese-language volume of The Annual Review of Low-Carbon Development in China (2011-2012).

## *An underground city in Paris – The Parisian sewer system*

written by Chi-Han Ai

Victor Hugo in "Les Misérables" mentioned that "the sewer is the conscience of the city". The completion of the sewer system not only reflects the development level of a city, but also embodies the quality of life. The Parisian sewer system may be used for the urbanisation in China. (Article in Chinese 文章以中文撰写).

<http://urbachina.hypotheses.org/6848>

## *Who is in charge of waste?*

written by Sebastien Goulard

How to encourage inhabitants to separate their waste?

<http://urbachina.hypotheses.org/6841>

# UrbaChina Newsletter

*Funded under the European Commission's Seventh Framework Programme, **UrbaChina** is a collaborative project managed by a consortium of 11 leading Chinese and European research institutions. **UrbaChina** analyses China's urbanisation trends for the next 40 years and define possible future scenarios with reference to concepts of sustainability.*
